SIDESTEP DECK ROT

2X STRONGER AND 40% LIGHTER
THAN INDUSTRY STANDARD MARINE GRADE PLYWOOD

Z42 COMPOSITE DECK

Our Z42 composite deck is the best in the business. Consisting of 1 piece with no seams, this deck is superior to all competitors. Our construction eliminates moisture absorption, mold growth, and deck rot that is found in traditional plywood systems. This decking will prolong the life of your boat to it's fullest.

WEATHER & FADE RESISTANT FLOORING

We use only the finest selection of flooring materials that are sure to last.

INTEGRATED DECK TRIM & RUB RAIL

No glue, no worries. Trim won't detach due to failing adhesives.

CONTINUOUS RISER BRACKET

We weld our risers directly to the tubes for the strongest and most rigid chassis structure available.

PRESSURISED TUBES

Air pressure increases the rigidity and durability of pontoons. Our design features a standard Shrader valve for easy air-up.

52 INCH NOSE CONE

You'll notice an instant increase in rideability and the ability to get on plane faster.

STRONGER BONDED BOLT THROUGH METHOD

Screwed, glued, & bolted. Our bolt attachment technique will last years longer than traditional methods.

REINFORCED SPLASH FINS

Keep splashback off your boat.

REINFORCED CONTINUOUS BOW

Constructed of C-channel and box channel tubing, resulting in the strongest bow on the market.

LIFETIME STRUCTURAL WARRANTY

ALL ALUMINUM AND WELDS BELOW DECK

7 YEAR FLOORING OR VINYL UP
